Notification of Multiple Medical Marijuana Products Recall

The Marijuana Regulatory Agency (MRA) is issuing this health and safety advisory bulletin due to the presence of Vitamin E Acetate in several vape cartridges which failed laboratory testing. The Limit of Quantitation (LOQ) for Vitamin E Acetate is 100 Parts per Million (ppm). Any presence of Vitamin E Acetate exceeding the LOQ is a failed sample.

All affected vape cartridges will have a label that indicates the license number of the marijuana facility that packaged the marijuana product as well as tag number assigned to the product in the statewide monitoring system.
